

SecureTablePay

The certified and field-proven pay-at-the-table solution

SecureTablePay is an EMV pay-at-the-table solution, for both chip and sign and chip and PIN cards. With a decade of field-proven innovation in over 2,000 restaurant installations, SecureTablePay is now fully certified and available in the U.S. marketplace.

- Accepts credit cards, debit cards, gift cards, loyalty and point cards
- Works with mobile wallets: Apple Pay and Android Pay

- Payment terminals pull the check information remotely from the POS
- Any server or payment terminal can view and accept payments for any table
- Tip calculator with percentages and/or dollar amounts
- PINpad closes the table and completes full payment reconciliation remotely

- Bluetooth connectivity to the terminal base
- Multiple language presentation
- Works with most POS systems
- Takes POS out of scope for PCI compliance requirements
- Point-to-point encryption (P2PE)
- Multichannel ready: wireless for table service, wired for QSR and drive-thru, and 3G for delivery

SECURE

Your customers and your business are better protected with SecureTablePay.

- Your customers' privacy is protected because their cards never leave their hands.
- Bringing EMV to the table protects the restaurant, reducing potential fraud and chargebacks.
- Transactions are processed between the SecureTablePay device and the host processor -- sensitive and at-risk data that demands rigorous levels of PCI compliance never touches your POS.

EFFICIENT

SecureTablePay delivers not just increased security but increased efficiency as well.

- Eliminate steps by completing the payment transaction directly at the table; you reduce time, cost and risk.
- Handling more tables, more efficiently, boosts check amounts.
- Close large tables with multiple payment terminals simultaneously.
- Greater convenience for the customer and greater productivity for the server.

UNIVERSAL

SecureTablePay works with more than 20 top restaurant management systems.

- If you use a system that hasn't been integrated yet, we'll work with you to integrate it quickly and with minimal effort.
- And it works seamlessly with Vantiv, now Worldpay, ensuring secure and accurate transaction processing.

Easy. Efficient. Secure.
